OPEYEMI OLAMIJU (BUILD WITH OPE)

AVAILABLE FOR IMMEDIATE ROLES

Data Scientist • Python & FastAPI Backend Developer • AI Video Creator

odunayoopamiju@gmail.com • linkedin.com/in/opeyemiolamiju • github.com/kikibillz • Remote / Relocation Ready

PROFESSIONAL SUMMARY

Data Scientist and ML Backend Developer with a B.Sc. in Computer Science (OOU), distinguished by a high-value intersection of production machine learning (XGBoost, Scikit-learn, FastAPI, SQL/NoSQL) and empirical People Operations & HR domain experience (Culturelligence). Proven in modeling workforce retention risk, building sub-25ms inference APIs with Pydantic v2 schemas, and automating multi-client statutory financial ledgers with zero calculation errors. All claims verified by open-source GitHub repositories (>90% Pytest coverage) and live interactive cloud deployments.

CORE TECHNICAL PROFICIENCIES

Machine Learning & People: Scikit-learn, XGBoost, Random Forest, SMOTE, Workforce Attrition Modeling, Feature Engineering
Cloud & Infrastructure: AWS (EC2, S3), Google Cloud (GCP - Cloud Run), Docker Containers, MLflow, CI/CD (GitHub Actions), Linux CLI
BI & Visualization: Power BI (DAX, Star Schema, KPI Dashboards), Tableau, Streamlit, Plotly Dashboards, Seaborn, Matplotlib
Backend & Microservices: FastAPI, Pydantic v2, Uvicorn ASGI, Docker, OpenAPI / Swagger, SQLAlchemy, Pytest (>90% cov)
Databases & Storage: SQL (PostgreSQL, MySQL, SQLite), NoSQL (MongoDB), Schema Design, Complex Joins, Window Functions, Redis
LLMs & Generative AI: Large Language Models (LLMs), OpenAI & Gemini APIs, Prompt Engineering, RAG, Google Veo 3, Runway Gen-3
Programming & Web: Python, SQL, TypeScript, JavaScript, HTML5, REST APIs, Git, GitHub, OpenPyXL, XlsxWriter

PROFESSIONAL EXPERIENCE

Machine Learning Developer & Data Analyst — 2023 – Present

Independent & Applied Open-Source Deployments • Remote / Global

- Architected, evaluated, and deployed machine learning systems and interactive applications using Python, Streamlit, and FastAPI.
- Serialized trained classification models (XGBoost, Random Forest) via Joblib, enabling sub-50ms real-time inference latency.
- Engineered domain-specific interaction variables, resolved high-cardinality categorical data, and countered severe class imbalance with SMOTE.
- Built asynchronous REST API endpoints with FastAPI and Pydantic v2 validation contracts, achieving >90% test coverage with Pytest.

People Leader (Promoted) & Agile People Operations Specialist — Aug 2024 – Jul 2025

Culturelligence • Hybrid / Remote

- Managed workforce databases, monitored recruitment funnels, and optimized internal employee onboarding data operations.
- Prepared departmental headcount distributions, tenure analytics, and employee retention summaries for leadership review.
- Rapidly promoted to People Leader for workflow efficiency, cross-team accountability, and operational excellence.

Administrative Support & Virtual Assistant — Dec 2024 – Present

Freelance & Private Clients • Remote

- Automated administrative workflows, maintaining structured tracking spreadsheets and executive databases with zero error rate.
- Standardized operational SOPs, cleaned multi-source business data, and authored weekly KPI progress briefs for stakeholders.

OPEYEMI OLAMIJU Curriculum Vitae • odunayoopamiju@gmail.com • github.com/kikibillz

KEY APPLIED PROJECTS

Enterprise Hybrid Data Platform (PostgreSQL & MongoDB) — SQL • PostgreSQL • NoSQL • MongoDB • PyMongo • SQLAlchemy • Docker
Dual-engine data platform integrating ACID relational PostgreSQL schemas with MongoDB document collections for real-time telemetry, 4.5x indexing speedup, and sub-25ms analytical queries across 1.2M+ records.

FastAPI Production ML Inference & Validation Service — FastAPI • Pydantic v2 • Uvicorn • Docker • Scikit-learn
High-throughput asynchronous REST API serving ML models with strict request validation, automated interactive Swagger UI docs, and sub-15ms response latency.

Bank Customer Churn Predictor & Retention Engine — Python • Scikit-learn • XGBoost • Streamlit • Pandas
Supervised classification platform predicting customer churn with 86% ROC-AUC, interactive risk probability gauges, and dynamic retention recommendations.

HR Analytics & Employee Attrition Intelligence — Python • Streamlit • Seaborn • Random Forest
Workforce analytics platform diagnosing turnover drivers across tenure, salary, and satisfaction metrics to forecast retention risks with real-time scoring.

Commercial Generative AI Video Productions — Google Veo 3 • Runway Gen-3 • Kling AI • ElevenLabs
Directed commercial video campaigns (Indomie Noodles, Luxury Real Estate, AI Tech Promos) engineering cinematic prompts, motion brush cameras, and audio design.

EDUCATION & ACADEMIC BACKGROUND

Bachelor of Science (BSc) in Computer Science — 2019 – 2023
Olabisi Onabanjo University (OOU)
Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming (Python/Java), Database Management Systems (SQL), Software Engineering, Probability & Statistics, Discrete Mathematics, Computer Architecture.

VERIFIED CERTIFICATIONS & LICENSES (13 TOTAL)

Certified Data Scientist — Aug 2024
New Horizons (ID: NH-DS-2024)

Agile People Operation Specialist — Jul 2024
Culturelligence (People Ops)

AI Career Essentials (AiCE) — May 2024
ALX Africa (ID: ALX-AICE-2024)

Certified Technical Recruiter — Nov 2023
Hirist / Cutshort (ID: cert_bfxyxv9d)

Data Visualization & BI Intern — Sep 2024
Excelerate (Dashboards)

Behavioral Product Analytics — 2024–2030
Hotjar (ID: x3ftgg2pwb2f)

Certified Product Manager (CPM) — Feb 2024
BeTechified (Product Strategy)

UI/UX Design Certification — May 2024
Dev and Design (Product Design)

Applied Product Management — Oct 2024
Prodefied (Lifecycle & Agile)

Professional Virtual Assistant — Dec 2023
ALX Africa (Executive Data)

Remote Work Professional — Jun 2024
FOGDEV (Distributed Tools)

Workplace Soft Skills — Oct 2020
Jobberman (Emotional Intel)

Certified Digital Educator — 2023–2030
UNESCO IOC (EdTech & Learning)
