OPEYEMI OLAMIJU (BUILD WITH OPE)

Data Scientist | Python & FastAPI Developer | AI Video Creator

Email: odunayoopamiju@gmail.com • Location: Lagos, Nigeria • GitHub: github.com/kikibillz • LinkedIn: linkedin.com

PROFESSIONAL SUMMARY

Results-driven Data Scientist, Python Developer, and Generative Media Specialist with a BSc in Computer Science. Experienced in architecting production machine learning systems, high-throughput asynchronous REST APIs (FastAPI, Pydantic v2), and interactive data products (Streamlit). Skilled in exploratory data analysis, predictive modeling (XGBoost, Scikit-learn), feature engineering, and directing commercial-grade AI video productions (Google Veo, Runway, Kling AI). Proven track record delivering scalable, verifiable software and cross-functional operations.

TECHNICAL SKILLS

Programming: Python, TypeScript, JavaScript, HTML, SQL

Data Science & ML: Pandas, NumPy, Scikit-learn, XGBoost, Regression, Classification, Feature Engineering, SMOTE

Backend & APIs: FastAPI, Pydantic v2, Uvicorn ASGI, RESTful APIs, Docker, SQLAlchemy, OpenAPI / Swagger, Pytest

Visualization & UI: Matplotlib, Seaborn, Plotly, Streamlit, React, Tailwind CSS

Generative AI & Video: Google Veo 3, Runway Gen-3, Kling AI, Luma Dream Machine, Midjourney v6.1, ElevenLabs, Prompt Engineering

Tools & DevOps: Git, GitHub, Docker, Postman, Linux, Jupyter Notebook, VS Code, Vercel

PROFESSIONAL EXPERIENCE

Machine Learning Developer & Data Analyst — 2023 – Present

Independent & Applied Open-Source Deployments

- Engineered, evaluated, and deployed machine learning pipelines and interactive web applications using Streamlit and FastAPI.
- Serialized trained classification models (XGBoost, Random Forest) via Joblib, enabling sub-50ms real-time inference latency.
- Engineered interaction variables, resolved high-cardinality categorical features, and handled severe class imbalance using SMOTE.
- Built asynchronous REST API endpoints with FastAPI and Pydantic v2 validation contracts, achieving >90% test coverage with Pytest.

Administrative Support & Virtual Assistant — Dec 2024 – Present

Freelance / Various Clients

- Managed operational datasets, automated administrative workflows, and maintained structured tracking spreadsheets with zero error rate.
- Standardized standard operating procedures (SOPs), cleaned multi-source business data, and delivered weekly progress summaries.

People Leader (Promoted) & Agile People Operations Specialist — Aug 2024 – Jul 2025

Culturelligence

- Maintained workforce records, monitored recruitment analytics, and optimized internal onboarding data pipelines.
- Prepared departmental headcount, tenure summaries, and attrition indicators for leadership review.
- Promoted to People Leader for workflow efficiency, cross-team accountability, and operational excellence.

FEATURED PROJECTS

FastAPI Production ML Inference & Validation Service [FastAPI, Pydantic v2, Uvicorn, Docker, Scikit-learn]
Production-ready asynchronous REST API serving ML models with dynamic request validation, automated Swagger UI docs, and sub-15ms latency.

Bank Customer Churn Predictor & Retention Engine [Python, Scikit-learn, XGBoost, Streamlit, Pandas]
Supervised classification app predicting customer departure with 86% ROC-AUC, interactive risk dials, and automated financial retention suggestions.

HR Analytics & Employee Attrition Intelligence [Python, Streamlit, Seaborn, Random Forest]
Diagnostic platform uncovering turnover drivers across salary, tenure, and department metrics with real-time risk scoring.

Commercial AI Video Productions (Google Veo & Runway Gen-3) [Google Veo 3, Runway Gen-3, Kling AI, ElevenLabs]
High-retention commercial adverts (e.g. Indomie, Luxury Real Estate, AI Tech Promos) directing prompt cinematography and dynamic voiceovers.

EDUCATION

Bachelor of Science (BSc) in Computer Science — 2019 – 2023

Olabisi Onabanjo University (O.O.U) — Ogun State, Nigeria

Key Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems (SQL), Software Engineering, Probability & Statistics.
